Low voltage direct. 2014/35/EU

GENERAL CHARACTERISTICS

Commercial Series	WADO Series - Mini Trunking
Synthetical description	END CAP

Description

The end cap from the WADO Series is a precise finishing component for cable management systems, designed for both domestic and commercial applications. Measuring 20x10mm, it is constructed from robust thermoplastic material, ensuring durability and a secure fit. The white finish allows for seamless integration into various environments. With an IP40 protection rating, it offers reliable protection against solid objects larger than 1mm, making it suitable for indoor installations. This end cap is essential for completing and securing cable trunking systems, providing a clean and professional appearance in any setting.

TECHNICAL CHARACTERISTICS

Rated voltage	1.000V

PHYSICAL CHARACTERISTICS

Colour	WHITE
Material	THERMOPLASTIC
GLOW WIRE	GW 650°C
Protection degree IK	IK06
Protection degree IP	IP40
Working temperature	-20°C/+60°C

DIMENSIONAL CHARACTERISTICS

Dimensions	20x10mm
Number of compartments	1 WAY
