GENERAL CHARACTERISTICS

Commercial Series	WADO Series - Mini Trunking
Synthetical description	END CAP

Description

The end cap from the WADO Series is a practical component for cable management systems in both domestic and commercial settings. Measuring 40x10mm, it is constructed from robust thermoplastic material, ensuring durability and a long service life. The end cap features a white finish, allowing it to blend seamlessly into various environments. With an IP40 protection rating, it provides effective protection against solid objects larger than 1mm, making it suitable for indoor installations. This product is designed to securely close off the ends of mini trunking, maintaining a tidy and professional appearance in any installation.

TECHNICAL CHARACTERISTICS

Rated voltage	1.000V

PHYSICAL CHARACTERISTICS

Colour	WHITE
Material	THERMOPLASTIC
GLOW WIRE	GW 650°C
Protection degree IK	IK06
Protection degree IP	IP40
Working temperature	-20°C/+60°C

DIMENSIONAL CHARACTERISTICS

Dimensions	40x10mm
Number of compartments	2 WAYS
